From the ground up, we provide retail development expertise and long-term value creation.

We Do Our Homework

Superior market knowledge is critical to the success of real estate projects. At Hunington, we provide our clients a competitive edge through a process that begins by identifying the right market opportunity, conducting detailed analysis, and leveraging our connections in the market. With our fingers on the pulse of the market and our proactive business culture, we can get into areas that are about to take off before others in our arena. Through our vast experience, we offer expertise in developments that range from retail centers and free-standing restaurants and shops to single tenant facilities and industrial/business parks, and mixed-use projects.

Our experienced real estate development team has become synonymous with quality retail properties throughout greater Houston. We focus on value creation for real estate assets and leverage our significant track record in finding and optimizing opportunities. Our projects are structured to have long-term security despite changing economic conditions. Site analysis, highest and best use studies and competitive demand projections are carefully weighed for potential new property developments. For renovation and redevelopment work, we provide cost/benefit analyses and value projections. What's more, as a full-service real estate firm, we can also provide cohesive property management, leasing, and investment sales services.
